Celebrate African and African American Art: Egypt

VMFA's Virtual Family Day events are great opportunities to travel to a distant land—from the comfort of your own home! Join us online and learn about Egypt from past to present through virtual tours of VMFA's ancient Egyptian art collection. Get a closer look at traditional art objects and make your own art, inspired by performances and demonstrations that will give you greater insight into Egyptian culture. All family members are welcome to participate in this virtual event. Activities are recommended for children ages 3–12. Free art bags with art activity supplies are available before the virtual event on a first-come, first-served basis inside VMFA at the Visitor Services Desk. Each bag includes supplies needed for each of the three art activities. Anyone can pick-up a bag, whether they register for the event or not.
