

MWV is proud to be providing educational programming for *Forbidden City: Imperial Treasures from the Palace Museum, Beijing*. This exhibit is a truly unique opportunity to have world class art and exciting cultural exchange in Richmond at the Virginia Museum of Fine Arts.

“There is so much for students, families and scholars to learn about Chinese culture through this one-of-a-kind exhibit at the VMFA,” said John A. Luke, Jr., chairman and CEO, MWV. “Our company has been doing business in China for nearly three decades, and we are still learning every day how to best serve customers and consumers in this fast-growing economy. Cultural exchange and ongoing education, including the activities we sponsor at VMFA, are essential ways to ensure that we all advance and progress together.”

MWV is pleased to be the primary educational partner for VMFA. The MWV Art Education Center hosts programs that now serve 90,000 individuals - students, families and educators - each year, including three annual Family Days focused on China, Latin America and Africa. We have also provided support for education programming for the *Mummy: Secrets of Tomb* and *Maharaja: Splendors of India's Great Kings* exhibitions.

As a global company, MWV is making an impact in communities where our employees live and work around the world. We are committed to building sustainable communities, advancing educational opportunity, and preserving our natural environment. We also fund specific efforts to ensure tomorrow's workforce is both creative and well-qualified, which is one of the many reasons we're excited to be a sponsor of the *Forbidden City* exhibit and all of the educational programming at VMFA. Our 16,000 employees around the world have donated more than 572,000 hours to more than 3,000 qualified organizations, and the MWV Foundation has contributed more than \$36 million in support to targeted charitable programs since 2003.

MWV is a global packaging company providing innovative solutions to the world's most admired brands in the healthcare, beauty and personal care, food, beverage, home and garden, tobacco, and agricultural industries. The company also produces specialty chemicals for the automotive, energy, and infrastructure industries and maximizes the value of its development land holdings. MWV's network of 125 facilities spans North America, South America, Europe and Asia. We have been recognized for financial performance and environmental stewardship with a place on the Dow Jones Sustainability World Index every year since 2004.
