

“TAKE IT FURTHER” TEMPLATE

Art Making Activity: *Design a Samurai Helmet*

Want to customize your samurai helmet even more? Here is a template for the “take it further” section found on the step-by-step instructions of your art activity.

- Using crayons or colored pencils, add your design to the inside of the dotted circle provided above.
- When your design is complete, use scissors to cut along the dotted lines.
- Push the brad through the smaller inner circle on your round template and then again through the paper helmet template. Fold down the sides of the brad on the back of your helmet template to secure your design to your helmet.
