

# Viewfinder Template

At-Home Art Activity: Photography Challenge Inspired by *A Long Arc*

## Materials

- Scissors
- Pencil
- Notebook or clipboard
- Tape

## Directions:

1. Cut along the dotted lines of the rectangle above to create a rectangular-shaped cutout on this page. This cutout will become your viewfinder. **TIP:** To get started, fold the paper slightly and use your scissors to make a cut in the middle of the rectangle, then work your way to the dotted lines to cut out the rectangle shape.
2. Once you are done cutting, use tape to attach this page to the back of a notebook or clipboard, so that the viewfinder is visible.
3. Grab a pencil and get ready to pick a location/space to explore and test out your new photography skills with your viewfinder!

Follow the instructions provided on the *At-Home Art Activity: Photography Challenge* resource on VMFA's LEARN website

<https://vmfa.museum/learn/>

This online resource will teach you photography skills and guide you on how to use this template as a viewfinder.
